

Isaiah 6:9-10

And He said, "Go, and tell this people: 'Keep on listening, but do not perceive; keep on looking, but do not understand.' ¹⁰ "Render the hearts of this people insensitive, Their ears dull, And their eyes dim, Lest they see with their eyes, Hear with their ears, Understand with their hearts, And return and be healed."

On December 16, 1998 Congresswoman Nancy Pelosi is quoted as saying, "Saddam Hussein has been engaged in the development of weapons of mass destruction technology which is a threat to countries in the region and he has made a mockery of the weapons inspection process. The responsibility of the United States in this conflict is to eliminate weapons of mass destruction, to minimize the danger to our troops and to diminish suffering of the Iraqi people." It was under Democratic President Bill Clinton that these words of truth and resolve were spoken. Yet, under the leadership of President Bush, a bipolar stand has been taken by her. Recently she met the President of Syria as well as leaders of extreme terrorist cell groups in the Middle East, and she did it on her own accord; blatantly against the position of the White House, and as a show of force to emasculate our President. In any other time of history this would be called exactly what it is, "An act of Treason." My question for Congresswoman Pelosi is, "Exactly what promises did you make to the sworn enemies of our country?" My greatest fear is that America is being set up to becoming totally neutered towards the growing aggression towards the United States, our allies and especially Israel. I am sick and tired of the politicians who are willing to sell our country out, in order to retake control of the Oval office, the House and the Senate. Instead of our leaders doing what is best for this country, they are undeniably out to do nothing but assassinate the character of the opposing party. They don't care if America is spiraling into debt; they simply want to spend more in order to assure future votes from the citizens who are profiting from their programs. They would rather sacrifice our values, our heritage and our freedom in order to possess and maintain power!! It would seem that character and integrity has become a virtue of the past.

It becomes more evident daily, that the media, the liberals and the sworn enemies of the United States have one thing in common, a sworn hatred for President George W. Bush. My question is, why after eight years of being oppressed with the only President to ever be impeached for perjury, a convicted adulterer who violated the very office in which he served, literally and physically, and tried for rape, was fined \$25,000.00 as part of a sanction in which his Arkansas law license was suspended for five years; why after all that the citizens of the United States endured with the last President, is there so much hatred against the very man who has upheld the Presidential office with integrity and honor? The answer is because he is a Christian, and because he is more interested in doing what's right, than he is in being popular. I am in no way proclaiming loyalty to a political party here, but rather as a man of God I am simply speaking the truth. I exhort every person who calls themselves a Christian to lift our President up to God on a daily basis. America is at a crossroad, and we need to make sure that the values, by which this nation was founded, will continue on for our children and our grandchildren. Wake up church! Rise up out of your passivity and complacency, or life as you now know it, will suddenly change.
